New definition of houses and households:

The modified definitions of Houses and Households as per the 1971 census are:

Add

Census House: A census House is a building or part of a building having a separate main entrance from the road or common court yard or staircase, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for residential or non-residential purpose or both.

Household: A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member, two member of multi-member households for census purposes; each of these types regarded as a 'Household'. Again, there may be a household of persons related by blood or household of unrelated persons, the latter are Boarding Houses, Hostels, Residential Hostels, Orphanges, Rescue Homes, Ashramas, etc. These are called 'Institutional Households'.

A census house occupied by a household makes it an occupied residential house. Even if household used the census house in which it lives for any non-residential purposes such as business, workshop, etc., it is still counted as an occupied residential house. Thus census houses used as residence-cum-shop, residence-cum-workshops, etc., are also treated as occupied residential houses.

Estate Duty:

442 as penultimate paragraph There is an Estate Duty-cum-Income-Tax circle for the districts of Chikmagalur, Coorg, Hassan, Shimoga and South Kanara with its head-quarters at Mangalore. No tax is collected on the first Rs. 50,000 and tax is collected at 4 per cent to 85 per cent from Rs. 50,000 and above at various levels. The appellate authority for the entire state of Karnataka is the Appellate Controller of Estate Duty, Bangalore. There were 380 assesses for the Circle during the year 1972-73 and the amount collected was Rs. 14.36 lakhs. In cases of default, attachment of movable and immovable properties is resorted to.

445 at the end of the third paragraph The Mysore Land Reforms Act, 1961 is now (1973) being further amended.

519 as footnote

The village of Bellare was selected for preparing a Village Survey Monograph by the Census authorities in 1961

Housing:

724 under Barakuru Hosalu, which is a hamlet of Barakuru, has what is called the "Kattale Basadi", which consists two ruined stone-built Jaina mantapas and a small Shiva temple containing a Linga. From the fact that there are two dwarapalakas holding attributes of Vishnu, it appears that it was probably a Vaishnavite temple. According to the Archaeological Survey of India, these temples can be roughly dated 15—16th century A.D.

731

Gurikambla: Gurikambla, which is a hamlet of the Muduperar village, (T. Mangalore, P. 3,323) is about 20 kms. from Mangalore City. It has a dargah where the mortal remains of the saint Asraruddin lay buried. Thousands of devotees visit the dargah during the annual urs celebration.

741 under Kadri in line 1 after the word height. (The epigraph reads as follows: Lokeshvarasya devasya pratishthamakarotprabhuhu

Shrimat Kadrika namni viharesu manohare I From the term vihara used here, it can be said that it was a Buddhist place of worship. Further, as pointed by Dr. Benoytosh Bhattacharyya in his "The Indian Buddhist Iconography", one of the sadhanas which describe Lokeshvara says that the deity has three ears and three faces. In view of these facts, it seems that Lokeshvara here is a Buddhist deity.)

744 at the end of the fourth paragraph The town way also be called Mayikal and Kodiyal. According to Saletore, Mayikal is derived from Maya-Kala or Maya-kana signifying the abode of goddess-Maya. He seems to identify this goddess with Mangaladevi whose temple still exists in the city and the Buddhist goddess Tara Bhagavati. The Muslims had continued to call this place as Mayikal. The northern part of the city is still called Kodiyalaguttu.

Add

746 under Puttige as second para The temple of Somanatha has a fine idol of a rare type, made of a semi-precious gem stone. According to the Archaeological Survey of India, an important element of this image is that it avoids any identifiable iconographic traits of divinities and that it might possibly represent Yogishvara Vishnu (as Krishna). It might belong to the close of the sixteenth or early seventeenth century A.D. Locally, it appears to have been mistaken to be an image of Parvathi performing penance.

Dr. P. Gururaja Bhat is of the view that the icon is of Akshobhya Bodhisattva and of about the 13—14th Century A. D. (Vide Souvenir of the Bharathiya Vidya Bhavan, Mangalore Kendra—1972.)

750

Manipal (as marginal heading)

764

Very near to the Shri Krishna Math at Udipi, there is a temple dedicated to Ananteshwara (Shiva). It is one of the best Shiva temples of South Kanara district. Originally this temple seems to have been built about 8th or 9th Century. There are four small shrines dedicated to Skanda in the premises of the Ananteshwara temple. The upper ceiling of the temple has been covered with copper plates whereas the lower one has thick and big black stone slabs. The stone pillar in front of the temple belongs to the Vijayanagara period. The image of Shastra in the temple is elegantly carved. lithic record of Bukkaraya belonging to 1336 A.D. mentions the name of this Ananteshwara temple along with the Chandramoulishwara temple.
