In 1897, Mysore a Gazetteer compiled for Government, revised edition in two volumes with maps and illustrations.

“Another proof (If further evidence were required) that good work gets found out. Mr. Rice himself remarks that when he first published his book, he little thought that he would be called on to issue a second edition. But during twenty years his account of Mysore has served as a guide not only to the administrative staff, but also the British investors who have sent their capital to the gold fields and coffee plantations of that State. It is difficult, indeed to name a subject of interest whether from the official, the antiquarian, or the industrial point of view which does not find patient and thorough treatment in his volumes”

- The Times.

“As a repertory of all available knowledge about Mysore, admirably written and arranged, it is inestimable merit under the highest authority”.

-Scotsman.

“The name of the author is sufficient guarantee for its excellence and accuracy”

-Athenaeum.

In 1897 was published my new edition of the Gazetteer of Mysore, in two volumes, on which I had been for a long time engaged. This at once obtained a most favourable reception both in India and in England, where it was printed.

-Biographical Notes by B.L. Rice, 1923
